### Our Vision

- We believe that every pupil is entitled to effective school library provision. The SLA is committed to supporting everyone involved with school libraries, promoting high quality reading and learning opportunities for all.

### Reflections

Days at the SLA are nothing if not varied... Today I have sent letters to the Welsh

## Providing Access to Information

The effective use of information sources in the learning program is facilitated by access to information provided by systems and services managed through the school's information services. With their specialised knowledge of and expertise in information access, teacher librarians provide systems for effective information use in and beyond the school.

These systems include:

- the identification and selection of suitable information sources
- the application of national standards to the cataloguing of information sources
